RECEIVED PCD

City Council Members,

Oahu Island is a beautiful, unique place, and one of the reasons for this is the gorgeous and vital environment which surrounds us. I implore you all, in order to preserve that which makes the island a community like no other, to preserve that which supports threatened ecosystems, please, vote to create new regulations that protect our beautiful shorelines, for ourselves, and, more importantly, our posterity, that future generations may enjoy an even greater beauty ~~there~~ than that we enjoy now.

Thank you,

Nicholas Jacobson
